

# Survey of Emerging Technologies

## Module 15 Assignment

In this Module, you have learned about how to make money using three different types of technology: a YouTube channel, a blog, and a website.

Your assignment is to write up a business idea for each type of technology, and describe the steps you would need to take to start making money for your idea. You can come up with three completely separate/different ideas, or they can be along the same lines. (For example, your YouTube Channel, blog, and website could all be about do-it-yourself projects, or they could each be about something different.)

Your write-up for each type of technology should include two paragraphs written in complete sentences and the following criteria:

### **Business Idea Criteria**

#### *First Paragraph: Idea Description*

\*\*YouTube Channel, Blog, or Website name.

\*\*What will your YouTube Channel, Blog, or Website be about?

\*\*How often will you post to or update your YouTube Channel, Blog, or Website?

\*\*Why will this topic be interesting to other people?

#### 2nd Paragraph: Steps to Make Money

\*\*Describe the steps you will need to take in order to start making money on the idea you described in the first paragraph.
